

Project Management & Development Consultants

QUALITY POLICY

PMDC management and employees are committed to provide value-added quality services in the areas of Project management and engineering consulting to its clients, while fully conforming to its client's requirements.

PMDC is well aware of the vital role that quality plays in achieving a company's corporate objectives to:

- Ensure client satisfaction and foster good business relationships;
- Maintain an excellent market reputation and leadership;
- Continuously develop and enhance Project management and engineering consulting services, systems and capabilities to retain a competitive advantage and sustainable operations;
- Keep pace with state-of-the-art services and technological upgrades.

It is PMDC's commitment to establish, maintain and continually improve an effective and efficient Quality Management System that complies with ISO 9001:2008 standard requirements.

A handwritten signature in blue ink, appearing to read 'J. Subramanian', is positioned above the text.
